Postdoctoral Fellow Position

RNA biology and epigenetics

We are looking for a talented and motivated Postdoctoral Fellow to work on RNA biology and epigenetics in neurons and stem cells.

The position is in a newly established laboratory in the Department of Biochemistry at the University of California, Riverside. A successful applicant will have a strong background in molecular and cell biology, biochemistry and genetics. Prior experience with neurobiology, stem cell biology, bioengineering and/or computational biology is desirable. For more information about the lab, please visit <https://www.murnlab.info/>.

The position is available starting October 2017. Interested applicants should send their CV and contact information of three referees to
