

RiboClub membership is awarded to laboratories and not individuals.

The laboratory or group head need to contact us and commit his group to present at least once a year in the monthly session (by video conference or in person if within driving distance).

After the first presentation of the lab, all lab members become eligible for discounts, receive RiboClub communications and become eligible for the different RiboClub awards.

To become a member please send e. mail to RiboClub@RiboClub.org
